

20 November, 2025

This is to certify that **Mr. Surendar** (BE – Computer Science and Engineering (with specialization in Cyber Physical Systems)) has successfully completed his Internship and he worked on the below tasks

1. Performed comprehensive manual and automated testing of the Cargo Display Panel (CDP) to validate functionality, data accuracy, and system behavior across multiple modules.
2. Designed and implemented automation scripts using Python (Iron Python) to convert repetitive manual test cases into automated workflows, improving test efficiency and reliability.
3. Built custom Python utilities to fetch and process test data from Excel files, enabling data-driven testing and reducing manual effort.
4. Collaborated closely with developers and QA leads to analyze defects, reproduce issues, and support root-cause analysis for faster resolution.
5. Actively participated in code debugging and validation to ensure stable and accurate execution of automation scripts.
6. Used SVN for version control, committing automation code and maintaining structured version history in alignment with enterprise development practices.
7. Enhanced existing automation logic by adding validations, edge-case handling, and performance improvements to strengthen overall test coverage.

at HCL Technologies Ltd., during the period of 14/07/2025 to 20/11/2025.

We acknowledge his dedication and contribution, and we wish him continued success in his professional journey. Authorized Signatory Ashwathi S R Senior Software Engineer - HCL Technologies Ltd
